Electric
Minibus

The Nexport 7.5m electric minibus is one of the few electric minibuses available for school, on-demand, tourist transfer and shuttle transport – that is also DDA compliant.

The bus has a capacity of 30 (25 seated plus 5 standees) in route service configuration or 25 (all seater) in private charter configuration.

Reaching 240km in a single charge from its 178kWh LFP battery it can be charged back to full capacity in 2 hours.

- Sleek design with no batteries on the roof
- Greater aerodynamic stability
- Safer cornering due to low center of gravity
- Simple to operate, easy to drive
- Roomier and brighter interior cabin
- Ergonomically designed driver cabin
- Comprehensive aftercare & warranty package

Electrifying transport.
